SLEEPING LEVEL

The ALPIN CHALET is a cut above the rest

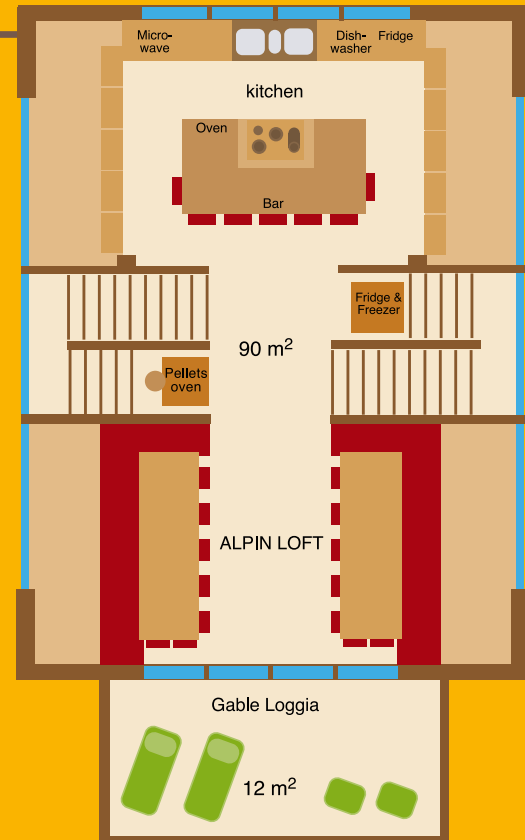

Location and atmosphere raise the chalet to higher spheres. You are majestically seated above everyday life. Far away from the mainstream and out of the ordinary. The thrill of the ultimate change of scenery is guaranteed.

Cosy nests to snuggle up in at night, an ALPIN ATRIUM for those who like to play, grown-ups and kids alike, a private sauna with a view, a kitchen like in a restaurant for passionate hobby chefs, an ALPIN LOFT as a high seat amidst the nature of the impressive mountains.

The architecture of the ALPIN CHALET

The most beautiful elements of a cosy lodge combined with the open elements of a modern loft:

- open rooms and plenty of windows with scenic views
- traditional handicraft – aesthetic in design yet with straightforward functionality
- down-to-earth, natural materials – ecologically conscious
- timber floor boards and stone floors with floor heating
- central heating with a renewable energy
- open and visible carpentry of the roof construction, larch wood furniture.

The ALPIN LOFT - the heart of the Chalets, in the open gable-ended room with a large perfect kitchen and dining bar, whereby each enthusiastic hobby chef has his bright delightful work space. Towards the balcony - where the dining and living quarters with homely corner seats are.

Central the ALPIN ATRIUM on the sleeping level an open lounge with a flat-TV. To the south the sunroom with sauna and double bed, four sleeping nests each with four beds and shower/wc. All together 18 beds. 5 additional sleeping rooms on the floor below.
